Subject: Microsoft settlement

Isn't it about time that these 9 states folded their tents, and stop doling out tax payers money to support a "few whiners" who can't stand up to any competition...That includes Netscape.....Again, if they want a bigger piece of the market, let them get out and do something radically different to improve over Microsoft's software.....Also, maybe they just don't have a dynamic marketing organization.....Let's end it now.....Dick Carr
